POLICY IMPLEMENTATION

Lutheran Education SA, NT & WA will apply the following needs-based system funding distribution principles for Lutheran schools within their approved authority:

1. Public funding will be distributed in compliance with the *Australian Education Act 2013 (Cwth)* and *Australian Education Regulation 2013*.
2. Australian Government recurrent funding allocated to the system authority of LESNW will, subject to any approved transitional arrangements, be consistently distributed to minimise funding changes which adversely impact educational programs and outcomes.
3. LESNW recognize needs-based funding arrangements that take account of the specific circumstances of students and individual schools in order to assist in the minimization of disadvantage and facilitate high quality education for every student within the system authority. LESNW system schools will receive a per capita grant for each student, supplemented by additional funding targeted at individual student needs.
4. LESNW has adopted a system weighted average SES score across all Lutheran schools in order to calculate the capacity to contribute percentage and therefore determine the funding quantum available to the approved system authority. LESNW has the ability to review the weighted average SES Score annually and implement a change. Where a system weighted average SES score is no longer beneficial for Lutheran schools, individual school SES scores will be used to calculate capacity to contribute.
5. An exception exists where Yirara College (NT) receives 100% of their Australian Government recurrent funding in recognition of guarantees made when the college joined the LESNW system.
6. A record of this policy is to be made publicly available on the LESNW website and upon specific request.
